

## Technical Advisor

### Nossal Institute for Global Health

#### **Overview**

The Nossal Institute for Global Health at the University of Melbourne needs an enquiring mind able to communicate across a wide range of sectors and cultures to this join a newly established team exploring law enforcement and public health.

The murder of George Floyd has dramatically highlighted what we've known for years - criminal justice and police approaches to public health problems make things worse.

We know what's wrong - but what's the way forward to better alternatives? Envisaging the Future of Policing and Public Health project is developing the evidence base for alternative approaches to the role of policing in addressing complex issues with health, criminal justice and social justice impacts and implications globally.

#### **About the Role**

You will be part of a team working to provide the evidence base for integration and reimagining of the law enforcement and public health sectors to increase community safety and well-being across a wide range of global settings.

#### **You will have the ability to**

- source and collect information from multiple sources about specific projects in any part of the world
- coherently bring the information together into meaningful and interesting case studies which clearly demonstrate key principles, in line with the overall aim of the program
- converse respectfully with key informants from all sectors and areas - police, prosecutors, health workers, managers, bureaucrats, people with lived experience from all walks of life and in many different societies

This is a unique career opportunity suited to someone with a social justice, policing or public health background.

You will have connectivity to a global network, as well as being mentored by an experienced senior professional in the sector.

This position has flexibility to be either part-time at 4 days a week or full-time for an initial 12-month contract. This position is based in Melbourne with hybrid working arrangements.

#### **Remuneration**

\$82,046 base salary + 10% superannuation per annum to be paid at 0.8 – 1.0 FTE; as well as access to not-for-profit sector salary packaging.
