The Opportunity

This is a unique opportunity for a Registered Nurse to work on the Doctors in Secondary Schools Program at Glenroy Headspace. You will be well supported clinically and operationally to ensure your career at Orygen is both fulfilling and rewarding without compromising on your life goals.

If you have a passion for the field of youth mental health and want to make a real difference to the lives of young people and their families and share Orygen's values of respect, accountability, teamwork, excellence and innovation, then we would love you to apply for our Practice Nurse role!

The role and your impact

Working within a multi-disciplinary team, the Practice Nurse Clinician holds a key role within the headspace centre, holding responsibility for the development and delivery of administrative and clinical support in the centre and Doctors in Secondary Schools program (DISS).

For young people attending the clinic, the position will provide practice administration and integration of effective communication across school staff, GP's working within headspace Glenroy and external organisations. The Practice Nurse will directly assist in provision of sexual, reproductive, vaccine and general health follow up as required for young people accessing the DISS program and headspace centre(s). This role will also provide complimentary health promotion and health education activities for young people accessing the centre and in the school setting if required.

Benefits

Depending on your skills and experience, a salary of \$80,000 – \$95,000 p.a. (pro rata) is offered plus superannuation, access to generous NFP salary packaging, flexible work/life balance benefits, great supportive team, purposeful work that makes a real difference to lives of young people and their families and carers and career opportunities within an organisation that is the leader in youth mental health.

About you

Essential to be successful in this role and to be considered, you will need:

- Registered Nurse, Division 1 (unrestricted) and registered with AHPRA.
- Experience in a practice nursing role and/or work in a community health setting, preferably regarding relevant adolescent health issues, such as sexual health, mental health, AOD and other physical health conditions.
- Excellent interpersonal and communication skills, with demonstrated ability to consult and liaise with multiple internal and external stakeholders (such as health and education professionals) to support service provision and effective clinic coordination.
- Demonstrated ability to engage in shared decision making to negotiate treatment plans with young people and their supports.

- Demonstrated knowledge of AGPAL standards for general practice.
- Demonstrated working knowledge of relevant legislation, policies and issues informing services for young people and families, including the Children, Youth and Families Act 2005, issues of consent, failure to disclose legislation and mandatory reporting requirements.
- Ability to set priorities, monitor work flows and develop best practice work standards in a fast-paced environment.
- Experience in the development and facilitation of health promotion activities.
- Competence regarding information technology, medical software packages and willingness to be trained across data collection systems.
