Resolutions of the Academic Board

These resolutions contain the minimum entry requirements for consideration for selection into courses of the University and are published in accordance with Part 2 [8(4)] of the Academic Board Regulation:

‘The Academic Secretary must publish all Board resolutions in a form approved by the Board.’

FACULTY OF SCIENCE &
MELBOURNE GRADUATE SCHOOL OF SCIENCE

<tr>
<td>Diploma in Mathematical Sciences     (100 credit points)</td>
</tr>
</tbody>
</table>

1. In order to be considered for entry, applicants must have completed:

- concurrent enrolment in a University of Melbourne undergraduate degree; and
- a study score of 30 in VCE Specialist Mathematics Units 3 and 4 or equivalent, or successful completion of university-level studies equivalent to VCE Specialist Mathematics Units 3 and 4.

Meeting this requirement does not guarantee selection.

2. In ranking applications, the Selection Committee will consider:

- prior academic performance.

The Academic Board may determine levels of prior academic performance which guarantee selection.

3. The Selection Committee may seek further information to clarify any aspect of an application in accordance with the Academic Board rules on the use of selection instruments.
4. Applicants will satisfy the University’s English language requirements for the Diploma by meeting the English language requirements for the Bachelor degree in which they are enrolled concurrently.

Note.

• Students are permitted to enter the diploma at the start of any semester before the completion of the companion undergraduate degree.

• Up to 50 points of advanced standing into the Diploma in Mathematical Sciences may be granted on request to students who complete appropriate first year and second year mathematics or statistics subjects within the degree. At the commencement of each individual mathematics or statistics subject, the subject is assigned to one of the degree or the diploma, according to the student’s approved enrolment for the semester in which the subject is taken. Once the subject has been successfully completed, credit points for the subject cannot be moved between the degree and the diploma to allow additional subjects to be taken in the degree.

• The Diploma in Mathematical Sciences cannot be awarded until all requirements of both the diploma and the undergraduate degree have been met.

Bachelor of Science
(300 credit points)

1. In order to be considered for entry, applicants must have completed: one of
(a) the Victorian Certificate of Education including
• VCE Units 3 and 4 – either a study score of at least 25 in one of English, English Language or Literature or a study score of at least 30 in English as an Additional Language, and
• VCE Units 3 and 4 – a study score of at least 25 in either one of Mathematical Methods or Specialist Mathematics and one of Biology, Chemistry or Physics; or
both of Mathematical Methods and Specialist Mathematics;
(b) the International Baccalaureate Diploma including
• at least Grade 4 in English or English B (Standard Level or Higher Level), Mathematics and one of Biology, Chemistry or Physics;
(c) a senior secondary program, foundation studies program or equivalent approved by the Academic Board including appropriate studies in English and Mathematics, and in at least one of Biology, Chemistry or Physics.

Except for applicants eligible for Access Melbourne, minimum ATAR or equivalent overall performance rankings apply.
Meeting these requirements does not guarantee selection.

2. In ranking applications, the Selection Committee will consider:
   • prior academic performance.

3. The Selection Committee may seek further information to clarify any aspect of an application in accordance with the Academic Board rules on the use of selection instruments.

4. For applicants who have not completed the Victorian Certificate of Education or the International Baccalaureate Diploma, the undergraduate **English language requirements** must be met.

   **Note.**
   • For applications through the Victorian Tertiary Admission Centre, “middle-band” selection adjustments are made only on the basis of eligibility for Access Melbourne.
   • An alternative pathway is available for applicants eligible for advanced standing of a least 100 points towards the science component of the B.Sc. including at least 25 points at second year level in a discipline area available in the BSc as a major study area. To be considered under this pathway, applicants must meet the University’s undergraduate **English standards** and have completed VCE Mathematical Methods (CAS) Units 3 and 4 with a study score of at least 25, or equivalent.

### Bachelor of Science Extended
*(400 credit points)*

1. In order to be considered for entry, applicants must have completed: one of
   (a) the Victorian Certificate of Education including
   • VCE Units 1 and 2 – satisfactory completion of one of Biology, Chemistry, General Mathematics, Mathematical Methods (CAS), Physics, or equivalent
   • VCE Units 3 and 4 – a study score of at least 25 in one of English, English Language or Literature or English as an Additional Language;
   (b) a senior secondary program, foundation studies program or equivalent approved by the Academic Board including appropriate English language studies and studies in one of Mathematics, Biology, Chemistry or Physics.
   To be considered, applicants must also be recognized as Indigenous Australians or Torres Strait Islanders. **Minimum ATAR or equivalent overall performance rankings** apply.

   Meeting these requirements does not guarantee selection.

2. In ranking applications, the Selection Committee will consider:
   • prior academic performance
   • academic capacity relevant to science study, assessed by interview and/or referee reports.
3. The Selection Committee may seek further information to clarify any aspect of an application in accordance with the Academic Board rules on the use of selection instruments.

4. For applicants who have not completed the Victorian Certificate of Education or the International Baccalaureate Diploma, the undergraduate English language requirements must be met.

Note. This specialised degree is for talented Indigenous Australians who may not meet the regular Bachelor of Science entry requirements. It includes integrated support and academic skills subjects.

Bachelor of Science (Degree with Honours) (100 credit points)

1. In order to be considered for entry, applicants must have completed:
   • within the last 10 years a Bachelor of Science with a weighted average mark of at least H3 (65%), or equivalent, with a major relevant to the discipline stream within the Bachelor of Science (Degree with Honours) that they seek to enter; or
   • within the last 10 years an undergraduate degree, of which at least the equivalent of two full years comprises science or technology areas of study, with a weighted average mark of at least H3 (65%), or equivalent, and containing at least 50 points of study at third year level in science or technology areas of study.
   • any necessary Year 12, first- or second-year study from other disciplines that form essential background to the discipline stream within the Bachelor of Science (Degree with Honours) that they seek to enter.

Applicants are also required to meet any specific subject prerequisites and prior academic performance requirements associated with the discipline stream that they seek to enter. For stream specific requirements please click here.

Meeting these requirements does not guarantee selection.

2. In ranking applications, the Selection Committee will consider:
   • prior academic performance; and
   • the availability of supervision and resources in suitable project areas.

Quotas may be applied to the degree as a whole or to individual discipline streams and preference may be given to applicants with evidence of appropriate preparation or potential to undertake research.

3. The Selection Committee may seek further information to clarify any aspect of an application in accordance with the Academic Board rules on the use of selection instruments.

4. For applicants who have not completed the Victorian Certificate of Education or the International Baccalaureate
Diploma, the undergraduate English language requirements must be met.

Bachelor of Science (Honours): Schedule of Discipline Streams.

This schedule shows available discipline streams and additional conditions applicants must meet to be eligible for (but not automatically guaranteed) selection into Honours within that stream.

Agricultural Science: a major in a discipline relevant to the proposed project

Anatomy and Neuroscience: a major in a discipline relevant to the proposed project

Animal Science and Management: a major in a discipline relevant to the proposed project

Biochemistry and Molecular Biology: a major in Biochemistry and Molecular Biology or in a discipline relevant to the proposed project. Students must have completed a minimum of two third-year subjects in Biochemistry and Molecular Biology

Botany: a major study in a biological science, or in a discipline relevant to the proposed project

Chemistry: a major in Chemistry. Applications from otherwise qualified graduates who have not completed a Chemistry major will be considered on a case-by-case basis by the Selection Committee.

Earth Sciences: a major in Earth Sciences, or in a discipline relevant to the proposed project

Food Science: a major in a discipline relevant to the proposed project

Forest Science: a major in a discipline relevant to the proposed project

Genetics: a major in Genetics or equivalent, including an appropriate (normally Genetics) third-year practical subject.

Geography: a major in Geography with an average of at least H2B (70%) in second and third-year subjects in Geography, or equivalent

Medical Biology: a major in a discipline relevant to the proposed project

Medicine (Austin Health): a major in a discipline relevant to the proposed project

Medicine (Royal Melbourne Hospital): a major in a discipline relevant to the proposed project

Medicine (St Vincent's Hospital): a major in a discipline relevant to the proposed project

Microbiology and Immunology: a major in a discipline relevant to the proposed project

Oral Health Science: a major in a discipline relevant to the proposed project

Otolaryngology: a major in a discipline relevant to hearing sciences

Paediatrics: a major in a discipline relevant to the proposed project

Pathology: a major in Pathology, or a major in a discipline relevant to the proposed project together with PATH30001 and PATH30002, or equivalent. Applications from otherwise qualified graduates who have not completed the above but
<table>
<thead>
<tr>
<th>Degree</th>
<th>Requirements</th>
</tr>
</thead>
</table>
| Bachelor of Science (Honours) (Psychology specialisation) (100 credit points) | 1. In order to be considered for entry, applicants must have completed:  
• all the requirements for the Bachelor of Arts or Bachelor of Science and an Australian Psychology Accreditation Council (APAC) accredited major in Psychology with a weighted average of at least 70% (H2B) in second and third-year subjects, or equivalent. In computing the weighted average, the average of the third year Psychology subjects is assigned twice the weight of the average of the second year Psychology subjects.  
Meeting these requirements does not guarantee selection.  
2. In ranking applications, the Selection Committee will consider:  
• prior academic performance, and  
• the availability of supervision and resources in suitable project areas  
3. The Selection Committee may seek further information to clarify any aspect of an application in accordance with the Academic Board rules on the use of selection instruments  
4. For applicants who have not completed the Victorian Certificate of Education or the International Baccalaureate Diploma, the undergraduate English language requirements must be met. |

Graduate School of Science
### Master of Science (Bioinformatics) (200 credit points)

1. In order to be considered for entry, applicants must have completed:
   - an undergraduate degree major in Biology and Biomedicine;
   - Mathematics and Statistics; or Computer Science, and
   - a weighted average mark of at least H3(65%) in the best 50 points in that major or relevant discipline studies at third year; and
   - completion of MAST10005 Calculus 1 or equivalent.

Meeting these requirements does not guarantee selection.

2. In ranking applications, the Selection Committee will consider:
   - prior academic performance.

3. The Selection Committee may seek further information to clarify any aspect of an application in accordance with the Academic Board rules on the use of selection instruments.

4. Applicants are required to satisfy the university’s English language requirements for graduate courses. For those applicants seeking to meet these requirements by one of the standard tests approved by the Academic Board, performance band 6.5 is required.

Note:
Quotas may be applied and preference may be given to applicants with evidence of appropriate preparation or potential to undertake research.

Entry into this stream of the Master of Science is subject to the capacity of the department(s) or school(s) offering the program stream to provide adequate supervision in a research project appropriate to the interests and preparation of the individual student and may be subject to the agreement of a member of academic staff to supervise the project module.

### Master of Science (Biosciences) (200 credit points)

1. In order to be considered for entry, applicants must have completed:
   - an undergraduate degree with a major in Biomedicine, Computational Biology, Ecology, Evolutionary Biology, Environmental Science, Genetics, Physiology, Plant Science, Veterinary Science or Zoology; and
   - a weighted average mark of at least H3(65%) in the best 50 points in that major or relevant discipline studies at third year.

Meeting these requirements does not guarantee selection.
2. In ranking applications, the Selection Committee will consider:
   prior academic performance.

3. The Selection Committee may seek further information to clarify any aspect of an application in accordance with the Academic Board rules on the use of selection instruments.

4. Applicants are required to satisfy the university’s English language requirements for graduate courses. For those applicants seeking to meet these requirements by one of the standard tests approved by the Academic Board, performance band 6.5 is required.

Note:
Quotas may be applied and preference may be given to applicants with evidence of appropriate preparation or potential to undertake research.

Entry into this stream of the Master of Science is subject to the capacity of the department(s) or schools(s) offering the program stream to provide adequate supervision in a research project appropriate to the interests and preparation of the individual student and may be subject to the agreement of a member of academic staff to supervise the project module.

**Master of Science (Chemistry)**
(200 credit points)

1. In order to be considered for entry, applicants must have completed:
an undergraduate degree with a major in Chemistry or equivalent with a weighted average mark of at least H3 (65%) in the best 50 points in the major or relevant discipline studies at third year; and
at least 25 points of third-year university-level Chemistry (of which 12.5 points must be practical-based subjects
Meeting these requirements does not guarantee selection.

2. In ranking applications, the Selection Committee will consider:
prior academic performance.

3. The Selection Committee may seek further information to clarify any aspect of an application in accordance with the Academic Board rules on the use of selection instruments.

4. Applicants are required to satisfy the university’s English language requirements for graduate courses. For those applicants seeking to meet these requirements by one of the standard tests approved by the Academic Board, performance band 6.5 is required.

Note:
Quotas may be applied and preference may be given to applicants with evidence of appropriate preparation or potential to undertake research.

Entry into this stream of the Master of Science is subject to the capacity of the department(s) or schools(s) offering the program stream to provide adequate supervision in a research project appropriate to the interests and preparation of the individual student and may be subject to the agreement of a member of academic staff to supervise the project module.

Master of Science (Computer Science)  
(200 credit points)

1. In order to be considered for entry, applicants must have completed:
   - an undergraduate degree with a major in Computer Science or equivalent, and a weighted average mark of at least H3(65%) in the best 50 points in the major or relevant discipline studies at third year; and
   - at least 25 points of university level mathematics or statistics subjects (in addition, some knowledge of formal logic and discrete mathematics and second year university level mathematics/statistics are recommended).

Meeting these requirements does not guarantee selection.

2. In ranking applications, the Selection Committee will consider:
   - prior academic performance.

3. The Selection Committee may seek further information to clarify any aspect of an application in accordance with the Academic Board rules on the use of selection instruments.

4. Applicants are required to satisfy the university’s English language requirements for graduate courses. For those applicants seeking to meet these requirements by one of the standard tests approved by the Academic Board, performance band 6.5 is required.

Note:
Quotas may be applied and preference may be given to applicants with evidence of appropriate preparation or potential to undertake research.

Entry into this stream of the Master of Science is subject to the capacity of the department(s) or schools(s) offering the program stream to provide adequate supervision in a research project appropriate to the interests and preparation of the individual student and may be subject to the agreement of a member of academic staff to supervise the project module.
Master of Science (Earth Sciences)  
(200 credit points)

1. In order to be considered for entry, applicants must have completed:
an undergraduate degree with a major in Agricultural Science,  
   Atmospheric and Ocean Sciences, Biochemistry, Botany,  
   Chemistry, Engineering, Environmental Science, Food  
   Science, Genetics, Geography, Geology, Mathematics,  
   Microbiology, Physics, Plant Science or Zoology, with a  
   weighted average mark of at least H3 (65%) in the best  
   50 points in that major or relevant discipline studies at  
   third year.

Meeting these requirements does not guarantee selection.

2. In ranking applications, the Selection Committee will consider:
   prior academic performance.

3. The Selection Committee may seek further information to clarify any aspect of an application in accordance with the Academic Board rules on the use of selection instruments.

4. Applicants are required to satisfy the university’s English language requirements for graduate courses. For those applicants seeking to meet these requirements by one of the standard tests approved by the Academic Board, performance band 6.5 is required.

Note:
Quotas may be applied and preference may be given to applicants with evidence of appropriate preparation or potential to undertake research.

Entry into this stream of the Master of Science is subject to the capacity of the department(s) or school(s) offering the program stream to provide adequate supervision in a research project appropriate to the interests and preparation of the individual student and may be subject to the agreement of a member of academic staff to supervise the project module.
**Master of Science (Ecosystem Science)**

(200 credit points)

1. In order to be considered for entry, applicants must have completed:
   an undergraduate degree with a major in Agricultural Science, Botany, Ecology, Environmental Science, Environmental Management, Environmental Studies, Environmental Engineering, Environmental Economics, Forest Science, Genetics, Geography, Geology, Hydrology, Environmental Psychology, Soil Science, or Zoology, and a weighted average mark of at least H3 (65%) in the best 50 points in that major or relevant discipline studies at third year.

   Meeting these requirements does not guarantee selection.

2. In ranking applications, the Selection Committee will consider:
   prior academic performance.

3. The Selection Committee may seek further information to clarify any aspect of an application in accordance with the Academic Board rules on the use of selection instruments.

4. Applicants are required to satisfy the university's English language requirements for graduate courses. For those applicants seeking to meet these requirements by one of the standard tests approved by the Academic Board, performance band 6.5 is required.

Note:
Quotas may be applied and preference may be given to applicants with evidence of appropriate preparation or potential to undertake research.

Entry into this stream of the Master of Science is subject to the capacity of the department(s) or school(s) offering the program stream to provide adequate supervision in a research project appropriate to the interests and preparation of the individual student and may be subject to the agreement of a member of academic staff to supervise the project module.

### Master of Science (Physics) (200 credit points)

1. In order to be considered for entry, applicants must have completed:
   - an undergraduate degree with a major in Physics, Mathematical Physics, Chemical Physics, Mathematics, Statistics, or Engineering, and a weighted average mark of at least H3 (65%) in the best 50 points in that major or relevant discipline studies at third year.
   - completion of Quantum Mechanics at both second-year and third-year university level (in addition, Electrodynamics and Statistical Physics at third-year university-level are recommended)

Meeting these requirements does not guarantee selection.

2. In ranking applications, the Selection Committee will consider:
   - prior academic performance.

3. The Selection Committee may seek further information to clarify any aspect of an application in accordance with the Academic Board rules on the use of selection instruments.

4. Applicants are required to satisfy the university’s English language requirements for graduate courses. For those applicants seeking to meet these requirements by one of the standard tests approved by the Academic Board, performance band 6.5 is required.

Note:
Quotas may be applied and preference may be given to applicants with evidence of appropriate preparation or potential to undertake research.
Entry into this stream of the Master of Science is subject to the capacity of the department(s) or school(s) offering the program stream to provide adequate supervision in a research project appropriate to the interests and preparation of the individual student and may be subject to the agreement of a member of academic staff to supervise the project module.

### Graduate Certificate in Science

(62.5 credit points)

1. In order to be considered for entry, applicants must have completed:
   - an undergraduate degree, or equivalent; and
   - at least 37.5 points of specific prerequisite subjects at level 2 or above for the stream into which entry is sought.

Meeting these requirements does not guarantee selection.

2. In ranking applications, the Selection Committee will consider:
   - prior academic performance.

3. The Selection Committee may seek further information to clarify any aspect of an application in accordance with the Academic Board rules on the use of selection instruments.

4. Applicants are required to satisfy the university’s English language requirements for graduate courses. For those applicants seeking to meet these requirements by one of the standard tests approved by the Academic Board, performance **band 6.5** is required.

**Note.**
The Graduate Certificate in Science is not a nested program within the Graduate Diploma in Science, but can be used as a pathway into the Master of Science.

Students who have completed the undergraduate component (50 points) of the Graduate Certificate in Science are eligible to apply for entry to the Master of Science (in the same discipline stream) and if admitted to the Master of Science will...
be able to have one AQF level 9 subject cross-credited from their Master of Science back to their Graduate Certificate in Science in order to complete the Certificate.

Graduate Certificate in Science: Schedule of Available Streams and their Requirements (approved by the Academic Board on 4 September 2014)

The following are the available streams, listed with their stream-specific requirements for appropriate disciplines for the undergraduate degree or major within the undergraduate degree, and any stream-specific subject prerequisites.

### Applied Mathematics
- Subject prerequisites – all three of MAST20009 Vector Calculus and MAST20026 Real Analysis and MAST20030 Differential Equations, or equivalent

### Botany
- Subject prerequisites – at least three level 2 or above Animal Science, Biology, Botany, Anatomy, Physiology, Biochemistry and Molecular Biology, Ecology, Genetics subjects, or equivalent

### Chemistry
- Subject prerequisites – all three of CHEM20018 Reactions and Synthesis and CHEM20019 Practical Chemistry 2 and CHEM20020 Structure and Properties, or equivalents

### Discrete Mathematics / Operations Research
- Subject prerequisites – both of MAST20018 Discrete Mathematics and Operations Research and MAST20026 Real Analysis plus one of MAST20004 Probability or MAST20006 Probability for Statistics, or equivalents

### Genetics
- Subject prerequisites – both GENE20001 Principles of Genetics and GENE20003 Experiments in Genetics and one of GENE20002 Genes and Genomes or BIOM20001 Molecular and Cellular Biomedicine, or equivalents

### Geology
- Subject prerequisites – all three of GEOL20001 Geology of Southeast Australia, GEOL20002 Structural and Metamorphic Geology and GEOL20004 Field Mapping and Sedimentary Geology, or equivalents

### Human Geography
- Subject prerequisites – three of GEOG20001 Society and Environments, GEOG20003 Environmental Politics and Management, GEOG20010 China in Transition, or GEOG20008 Inside the City of Diversity, or equivalents

### Integrated Geography
- Subject prerequisites – three of GEOG20001 Society and Environments, GEOG20003 Environmental Politics and Management, GEOG20010 China in Transition, GEOG20008 Inside the City of Diversity, GEOG20002 Global Landforms, GEOG20009 Geography and Biodiversity of Landscapes, ENST20002 Environmental Change Field Class, ERTH20001 Dangerous Earth, EVSC20003 Forests in a Global Context, or UNIB20001 Climate Change II, or equivalents

### Medicinal Chemistry
Subject prerequisites – CHEM20019 Practical Chemistry 2 plus BIOM20002 Human Structure and Function or PHRM20001 Pharmacology: How Drugs Work and CHEM20018 Reactions and Synthesis Genetics, or equivalents

Physical Geography
Subject prerequisites – three of GEOG20002 Global Landforms, GEOG20009 Geography and Biodiversity of Landscapes, ENST20002 Environmental Change Field Class, ERTH20001 Dangerous Earth, EVSC20003 Forests in a Global Context, or UNIB20001 Climate Change II, or equivalents

Physics
Subject prerequisites – all six of PHYC20005 Quantum Mechanics & Thermal Physics, PHYC20009 Thermal and Classical Physics, PHYC20010 Quantum Mechanics and Special Relativity, PHYC20011 Electromagnetism and Optics, MAST20009 Vector Calculus and MAST20026 Real Analysis, or equivalents

Pure Mathematics
Subject prerequisites – all three of MAST20009 Vector Calculus and MAST20022 Group Theory and Linear Algebra and MAST20026 Real Analysis, or equivalents

Statistics / Stochastic Processes
Subject prerequisites – both of MAST20005 Statistics and MAST20026 Real Analysis plus one of MAST20004 Probability or MAST20006 Probability for Statistics, or equivalents

Zoology
Subject prerequisites – one of ZOOL20005 Animal Structure and Function or ZOOL20006 Comparative Animal Physiology or ECOL20003 Ecology, or equivalents plus at least two further level 2 life sciences subjects, or equivalents

Graduate Diploma in Science
(125 credit points)
1. In order to be considered for entry, applicants must have completed:
   • an undergraduate degree, or equivalent; and
   • at least 25 points of specific prerequisite subjects at level 1 or above for the stream into which entry is sought.

Meeting these requirements does not guarantee selection.

2. In ranking applications, the Selection Committee will consider:
   • prior academic performance.

3. The Selection Committee may seek further information to clarify any aspect of an application in accordance with the Academic Board rules on the use of selection instruments.

4. Applicants are required to satisfy the university’s English language requirements for graduate courses. For those applicants seeking to meet these requirements by one of the standard tests approved by the Academic Board, performance band 6.5 is required.
Note.
Students who have completed the undergraduate component (100 points) of the Graduate Diploma in Science are eligible to apply for entry to the Master of Science (in the same discipline stream) and if admitted to the Master of Science will be able to have two AQF level 9 subject cross-credited from their Master of Science back to their Graduate Diploma in Science in order to complete the Diploma.

Graduate Diploma in Science: Schedule of Available Streams and their Requirements (approved by the Academic Board on 4 September 2014)

The following are the available streams, listed with their stream-specific requirements for appropriate disciplines for the undergraduate degree or major within the undergraduate degree, and any stream-specific subject prerequisites.

Applied Mathematics
- Subject prerequisites – both of MAST10006 Calculus 2 and MAST10007 Linear Algebra, or both of MAST10008 Accelerated Mathematics 1 and MAST10009 Accelerated Mathematics 2, or equivalents

Botany
- Subject prerequisites – 25 points of level 1 or above biological sciences subjects

Chemistry
- Subject prerequisites – CHEM10004 Chemistry 2 or CHEM10006 for Biomedicine, or equivalents and a further 12.5 points of level 1 science

Discrete Mathematics / Operations Research
- Subject prerequisites – both of MAST10006 Calculus 2 and MAST10007 Linear Algebra, or both of MAST10008 Accelerated Mathematics 1 and MAST10009 Accelerated Mathematics 2, or equivalents

Genetics
- Subject prerequisites – at least 25 points of level 1 or above biological sciences subject

Geology
- Subject prerequisites – ERTH10002 Understanding Planet Earth, or equivalent plus one other level 1 or above subject in Geology or Chemistry

Human Geography
- Subject prerequisites – GEOG10001 Famine in the Modern World, or equivalents plus 12.5 points of level 1 or above science subjects

Integrated Geography
- Subject prerequisites – two of ENVS10001 Natural Environments, GEOG10001 Famine in the Modern World, ERTH10001 The Global Environment or UNIB10003 An Ecological History of Humanity, or equivalents

Medicinal Chemistry
- Subject prerequisites – CHEM10004 Chemistry 2 or CHEM10006 for Biomedicine, or equivalents and a further 12.5 points of level 1 biological science subjects.

Physical Geography
• Subject prerequisites – two of ENVS10001 Natural Environments, GEOG10001 Famine in the Modern World, ERTH10001 The Global Environment or UNIB10003 An Ecological History of Humanity, or equivalents

Physics
• Subject prerequisites – 25 points of level 1 Physics and 25 points of level 1 Mathematics, or equivalent, plus two of PHYC20005 Quantum Mechanics & Thermal Physics and PHYC20009 Thermal and Classical Physics and PHYC20010 Quantum Mechanics and Special Relativity and PHYC20011 Electromagnetism and Optics, MAST20009 Vector Calculus and MAST20026 Real Analysis, or equivalents

Pure Mathematics:
• Subject prerequisites – both of MAST10006 Calculus 2 and MAST10007 Linear Algebra, or both of MAST10008 Accelerated Mathematics 1 and MAST10009 Accelerated Mathematics 2, or equivalents

Statistics / Stochastic Processes
• Subject prerequisites – both of MAST10006 Calculus 2 and MAST10007 Linear Algebra, or both of MAST10008 Accelerated Mathematics 1 and MAST10009 Accelerated Mathematics 2, or equivalents

Zoology
• Subject prerequisites – 25 points of level 1 or above Life Sciences

Graduate Certificate in Arboriculture (50 credit points)
1. In order to be considered for entry, applicants must have completed:
   - either
     - an undergraduate degree, or
     - a relevant TAFE or Higher Education Advanced Diploma or equivalent and three years documented relevant work experience or equivalent, or
     - a relevant TAFE Diploma and four and a half years relevant, documented work experience, or equivalent, or
     - at least six years of documented relevant work experience, including at least three years in a demonstrated supervisory role.

   Meeting these requirements does not guarantee selection.

2. In ranking and/or assessing applications, the Selection Committee will consider:
   - prior academic qualification and performance; and/or
   - the professional experience.

3. The Selection Committee may seek further information to clarify any aspect of an application in accordance with the Academic Board rules on the use of selection instruments.

4. Applicants are required to satisfy the university’s English language requirements for postgraduate courses. For those applicants seeking to meet these requirements by one of the standard tests approved by the Academic Board, performance band 6.5 is required.

Graduate Certificate in Garden Design 07/2014 GC-GARDES

*Transferred to Science owning org
1. In order to be considered for entry, applicants must have completed:
   
   either
   
   - an undergraduate degree, or
   - a relevant TAFE or higher education advanced diploma or equivalent and three years of documented relevant work experience, or
   - a relevant TAFE diploma and four and a half years of documented relevant work experience, or
   - six years of documented professional work experience which demonstrates the capacity to successfully undertake the course.

*Meeting this requirement does not guarantee selection.*

2. In ranking and/or assessing applications, the Selection Committee will consider:
   
   - prior academic qualification and performance; and, if relevant
   - the professional experience.

3. The Selection Committee may seek further information to clarify any aspect of an application in accordance with the Academic Board rules on the use of selection instruments.

4. Applicants are required to satisfy the university’s English language requirements for postgraduate courses. For those applicants seeking to meet these requirements by one of the standard tests approved by the Academic Board, performance band 6.5 is required.

---

**Master of Biotechnology**

(200 credit points)

1. In order to be considered for entry, applicants must have completed:
   
   - an undergraduate degree with a major in Life Science or Chemistry, with a weighted average mark of at least H3 (65%), including an appropriate sequence of at least 25 points of second-year genetics or biochemistry or equivalent subjects, and completion of either GENE30002, BCMB30002 or equivalent studies in molecular biology, molecular genetics, genomics and/or bioinformatics in the final year of undergraduate study.

*Meeting this requirement does not guarantee selection.*

2. In ranking applications, the Selection Committee will consider:
   
   - prior academic performance

3. The Selection Committee may seek further information to clarify any aspect of an application in accordance with the Academic Board rules on the use of selection instruments.

4. Applicants are required to satisfy the university’s English language requirements for graduate courses. For those applicants seeking to meet these requirements by one
of the standard tests approved by the Academic Board, performance band 6.5 is required.

Note: Applicants with an honours degree in a Life Science or Chemistry, including an appropriate sequence of at least 25 points of second-year genetics or biochemistry or equivalent subjects, and completion of either GENE30002, BCMB30002 or equivalent studies in molecular biology, molecular genetics, genomics and/or bioinformatics in the final year of undergraduate study may be awarded up to 100 points of credit.

Graduate Certificate in Environment
(50 credit points)
Graduate Diploma in Environment
(100 credit points)

1. In order to be considered for entry, applicants must have completed:
   either
   an undergraduate degree in a cognate discipline with at least an H3 (65%) weighted average, or equivalent;
   or
   an undergraduate degree in any discipline with at least an H3 (65%) weighted average, or equivalent; and two years of documented relevant professional work experience since graduation.

Meeting these requirements does not guarantee selection.

2. In ranking applications, the Selection Committee will consider:
   • prior academic performance; and, if relevant
   • professional experience.

3. The Selection Committee may seek further information to clarify any aspect of an application in accordance with the Academic Board rules on the use of selection instruments.

4. Applicants are required to satisfy the university’s English language requirements for graduate courses. For those applicants seeking to meet these requirements by one of the standard tests approved by the Academic Board, performance band 6.5 is required.

Notes:
Advanced standing in the Master of Environment:
Applicants with the following may be awarded up to 100 points of credit (advanced standing):
• an honours degree in a cognate discipline (typically one year of study following a Bachelors degree and including an independent research project equivalent to at least 25 points), with a weighted average mark of at least H3 (65%), or equivalent; or
- an undergraduate degree in a cognate discipline, with a weighted average mark of at least H3 (65%), or equivalent, and at least two years of documented, relevant work experience.
- a Graduate Diploma in Environment

Applicants with the following may be awarded up to 50 points of credit (advanced standing):
- a Graduate Certificate in Environment

Applicants seeking credit for relevant work experience must document their experience with a brief curriculum vitae detailing the experience, contact details of two referees who can confirm the authenticity and nature of the experience claimed, and a covering letter that explains how the experience is relevant to the program and prepares them for it.

| Graduate Certificate in Bushfire Planning and Management  
(50 credit points)  
**Master of Forest Ecosystem Science**  
(200 credit points)  
1. In order to be considered for entry, applicants must have completed:  
   - an undergraduate degree in a cognate discipline with a weighted average mark of at least H3 (65%), or equivalent, or  
   - an undergraduate degree in any area including at least 25 points in one or more of Chemistry, Biology, Mathematics or Statistics, or equivalent, and with a weighted average mark of at least H3 (65%), or equivalent, or  
   - an undergraduate degree in any area and a Graduate Certificate in Environment with a weighted average mark of at least H3 (65%) in the Certificate, or equivalent, or  
   - a two-year associate degree or diploma in a relevant discipline, or equivalent, and  
   - five years of documented, relevant professional experience, and  
   - an appropriate level of performance on a test conducted by the Selection Committee to confirm generic skills necessary for successful study in the program. | AB 06/2014 | GC-BFIREPM MC-FRSTES |
The requirement for a weighted average mark of at least H3 (65%) in each case may be waived where the applicant can demonstrate significant professional development in a relevant area since graduation.

Meeting these requirements does not guarantee selection.

2. In ranking applications, the Selection Committee will consider:
   - prior academic performance; and where required
   - professional experience; and where required
   - the test conducted by the Selection Committee.

3. The Selection Committee may seek further information to clarify any aspect of an application in accordance with the Academic Board rules on the use of selection instruments.

4. Applicants are required to satisfy the university’s English language requirements for graduate courses. For those applicants seeking to meet these requirements by one of the standard tests approved by the Academic Board, performance band 6.5 is required.

Master of Geoscience

(200 Credit Points)

Advanced Graduate Diploma of Geoscience

(100 credit points)

Advanced Graduate Certificate of Geoscience

(50 credit points)

1. In order to be considered for entry, applicants must have completed:
   - an undergraduate degree in Science with a major in Geology/Earth Science, with a weighted average mark of at least H3 (65%)

Meeting these requirements does not guarantee selection.

Notes.

Students entering the program with the approved equivalent of both Statistics and Computer Science majors may accelerate through to a 150-point program.

In order to be eligible for guaranteed Commonwealth Supported Place (for domestic students) or international fee place in the Master of Data Science, students must:
   - complete an Australian Year 12 or the International Baccalaureate (IB) in 2018 or later either:
     - in Australia; or
     - outside Australia and be an Australian citizen; and
   - achieve an ATAR (or notional ATAR) of 96.00 or above;
   - enrol immediately in an undergraduate degree at the University of Melbourne or be granted deferral in the year following Year 12;
   - successfully complete an undergraduate degree in one of the above-mentioned majors at the University of Melbourne;
   - commence the Master of Data Science within 18 months of completing the undergraduate degree.

**Master of Environmental Science**
(200 credit points)
1. In order to be considered for entry, applicants must have completed:
   - an undergraduate degree in an appropriate scientific discipline, with a course weighted average mark of at least H3 (65%)

Meeting these requirements does not guarantee selection.
2. In ranking applications, the Selection Committee will consider:
   - prior academic performance.

3. The Selection Committee may seek further information to clarify any aspect of an application in accordance with the Academic Board rules on the use of selection instruments.

4. Applicants are required to satisfy the university’s English language requirements for graduate courses. For those applicants seeking to meet these requirements by one of the standard tests approved by the Academic Board, performance band 6.5 is required.

**Notes**

Note 1: Appropriate scientific disciplines are any Environmental Science, Environmental Engineering, Bioscience, Chemistry, Physics, Earth Science, Forestry or Ecosystem Science, Geography, Mathematics and Statistics and Agricultural Science.

Note 2: Students who have completed an undergraduate degree in another science discipline may be considered for entry if they have completed at least 100 points of study up to second year level in the any combination of Environmental Science, Environmental Engineering, Bioscience, Chemistry, Physics, Earth Science, Forestry or Ecosystem Science, Geography, Mathematics and Statistics and Agricultural Science.

**Master of Geography**

(200 credit points)

1. In order to be considered for entry, applicants must have completed:

   - An undergraduate degree with a course weighted average mark of at least H2B (70%) or above, with a major in Geography or any of the following related disciplines: Ecology and Evolutionary Biology; Environmental Science; Earth, Ocean and/or Atmospheric Science; Zoology; Anthropology; Urban Studies; Social Science; Economics; Political Science

   Meeting these requirements does not guarantee selection.

2. In ranking applications, the selection committee will consider:

   - academic background;
• the WAM;

3. The selection committee may seek further information to clarify any aspect of an application in accordance with the Academic Board rules on the use of selection instruments.

4. Applicants are required to satisfy the University’s English language requirements for graduate courses. For those applicants seeking to meet these requirements by one of the standard tests approved by the Academic Board, performance band 7 is required.

**Ter of Environment**

(200 credit points)

1. In order to be considered for entry, applicants must have completed:

**200 Point Pathway**

- An undergraduate degree in a cognate discipline with at least an H3 (65%) weighted average, or equivalent; or
- An undergraduate degree in any discipline with at least an H3 (65%) weighted average, or equivalent; and at least two years of documented, relevant professional work experience since graduation.

**100 Point Pathway**

- An Honours degree or equivalent (typically one year of study following a Bachelors degree and including an independent research project equivalent to at least 25 points) in a cognate discipline with at least H3 (65%) average in the final year; or
- An undergraduate degree in a cognate discipline with at least H3 (65%) weighted average, and at least five years documented, relevant professional work experience since graduation.

Meeting these requirements does not guarantee selection.

2. In ranking applications, the Selection Committee will consider:

- prior academic performance; and, if relevant
- professional experience

3. The Selection Committee may seek further information to clarify any aspect of an application in accordance with the Academic Board rules on the use of selection instruments.
4. Applicants are required to satisfy the university’s English language requirements for graduate courses. For those applicants seeking to meet these requirements by one of the standard tests approved by the Academic Board, performance band 6.5 is required.’

Notes

**Advanced standing in the Master of Environment:**

Applicants to the 200 point pathway with the following may be awarded up to 100 points of credit (advanced standing):

- relevant honours or postgraduate level studies following a bachelor qualification; or
- at least five years of documented, relevant professional work experience since graduation.
- Graduate Diploma in Environment

Applicants with the following may be awarded up to 50 points of credit (advanced standing) where they have:

- Graduate Certificate in Environment

Applicants seeking credit for relevant work experience must document their experience with a brief curriculum vitae detailing the experience, contact details of two referees who can confirm the authenticity and nature of the experience claimed, and a covering letter that explains how the experience is relevant to the program and prepares them for it.

AB 08/2016

MC-GEOSC
Graduate Certificate in Green Infrastructure  
(50 credit points)  
1. In order to be considered for entry, applicants must have completed:  
   • an undergraduate degree; and  
   • documented relevant work experience (equivalent to two years of employment in a green infrastructure field)  
Meeting these requirements does not guarantee selection.  
2. In ranking applications, the Selection Committee will consider:  
   • prior academic performance, and  
   • the work experience  
3. The Selection Committee may seek further information to clarify any aspect of an application in accordance with the Academic Board rules on the use of selection instruments.  
4. Applicants are required to satisfy the university’s English language requirements for postgraduate courses. For those applicants seeking to meet these requirements by one of the standard tests approved by the Academic Board, performance band 6.5 is required.

Specialist Certificate in Research Practice for Scientists  
(25 credit points)  
1. In order to be considered for entry, applicants must have:  
   • completed a PhD in Science, or equivalent, or  
   • be admitted to the DR-PHILSCI Doctor of Philosophy – Science with a candidature status set to Under Examination (having submitted thesis).  
Meeting these requirements does not guarantee selection.  
2. The Selection Committee may seek further information to clarify any aspect of an application in accordance with the Academic Board rules on the use of selection instruments.  
3. Applicants are required to satisfy the university’s English language requirements for graduate courses. For those applicants seeking to meet these requirements by one of the standard tests approved by the Academic Board, performance band 6.5 is required.

Graduate Diploma in Data Science  
(100 credit points)  
1. In order to be considered for entry, applicants must have completed:  
   • an undergraduate degree in any discipline; and  
   • MAST10006 (Calculus 2) or equivalent; and  
   • MAST10007 (Linear Algebra) or equivalent.  
Meeting these requirements does not guarantee selection.  
2. In ranking applications, the Selection Committee will consider:
- prior academic performance.

3. The Selection Committee may seek further information to clarify any aspect of an application in accordance with the Academic Board rules on the use of selection instruments.

4. Applicants are required to satisfy the University’s English language requirements for graduate courses. For those applicants seeking to meet these requirements by one of the standard tests approved by the Academic Board, performance band 6.5 is required.

### Master of Computational Biology

(300 credit points)

1. In order to be considered for entry, applicants must have completed:
   - An undergraduate degree in an appropriate scientific discipline (Computational Biology, Biology and Biomedicine; Computer Science; Physics; Mathematics and Statistics), with a course weighted average mark of at least H3 (65%); and
   - Prerequisite subject MAST10005 Calculus 1 or equivalent.

Meeting these requirements does not guarantee selection.

2. In ranking applications, the Selection Committee will consider:
   - prior academic performance.

3. The Selection Committee may seek further information to clarify any aspect of an application in accordance with the Academic Board rules on the use of selection instruments.

4. Applicants are required to satisfy the university’s English language requirements for graduate courses. For those applicants seeking to meet these requirements by one of the standard tests approved by the Academic Board, performance band 6.5 is required.
