Melbourne Audiology Clinic

About Melbourne Teaching Health Clinics

The Melbourne Teaching Health Clinics (MTHC) was established by the University of Melbourne to operate and manage teaching health clinics that provide students at the University with world class clinical training as a core component of their studies. The organisation also provides continuing professional development training to persons working in the area of health care provision, facilitates research into health outcomes and provides patients with health services at affordable rates.

The three teaching clinics operating within MTHC are the Audiology and Speech Pathology Clinic (ASPC), the Shepparton Medical Centre (SMC) and the Melbourne Dental Clinic (MDC). The ASPC is a new clinic for MTHC and has been established to provide excellence in clinical education for the next generation of Audiologists and Speech Pathologists and increase access to comprehensive speech pathology services for members of the public.

About the Role

The Melbourne Audiology Clinic has a new and exciting opportunity for a collaborative leader to join and lead a skilled team of Audiologists to deliver high quality client-focused care while supporting the clinical training of the next generation of Audiologists. To be successful in the position you will have extensive clinical leadership experience and a strong track record of leading high performing teams. The role is a clinical 'hands on' position with dedicated management time to work with the Operations Manager and Lead Audiologists of each specialty to develop and grow the diagnostic and rehabilitation audiological services. You will be joining a dedicated team of audiologists supported by an organised and efficient administration team that work together to deliver high quality, comprehensive services to audiology patients in an environment that is committed to lifelong learning. Experience in delivering innovative hearing aid services to patients will be an advantage.

Located in Carlton, close to busy Lygon Street and a short tram ride from the Melbourne CBD, the Melbourne Audiology and Speech Pathology Clinic is a progressive and patient centred clinic that delivers high quality care and an outstanding learning environment.

Essential Selection Criteria

- A master's degree in clinical Audiology with extensive demonstrated experience at a senior level in clinical practice
- Extensive and demonstrated experience in a leadership position with an ability to collaborate with colleagues and mentor staff
- Extensive experience in delivering high quality Audiology services to patients in a private practice environment across a range of clinical settings, including diagnostic and rehabilitation settings;

- Commitment to ethical service delivery and continuous improvement of reflective practice
- Extensive experience in clinical leadership including process reviews, change implementation and sustainable practice
- Eligible for membership of the Audiology Australia with certificate of clinical practice (CCP)
- Exceptional patient management and interpersonal skills with the ability to communicate with a diverse group of clientele and stakeholders, and manage complex clinical caseloads
- Experience in supporting the clinical training of audiology students
- Outstanding communication skills with a demonstrated ability to build and maintain effective and productive relationships with a wide range of internal and external stakeholders
- Flexibility and openness to new ideas and change with an ability to be innovative and provide creative solutions
- Strong organisational and time management skills with an ability to work independently
- Excellent computer skills including all MS Office products

Benefits of joining our practice:

- Opportunity to grow and develop with the practice
- Drive the training of the next generation of Audiologists
- Work within a supportive and experienced team
