Melbourne Audiology & Speech Pathology Clinic

About Melbourne Teaching Health Clinics

The Melbourne Teaching Health Clinics (MTHC) was established by the University of Melbourne to operate and manage teaching health clinics that provide students at the University with world class clinical training as a core component of their studies. The organisation also provides continuing professional development training to persons working in the area of health care provision, facilitates research into health outcomes and provides patients with health services at more affordable rates.

The three teaching clinics operating within MTHC are the Audiology and Speech Pathology Clinic (ASPC), the Shepparton Medical Centre (SMC) and the Melbourne Dental Clinic (MDC). The ASPC is a new clinic for MTHC and has been established to provide excellence in clinical education for the next generation of Speech Pathologists in a private practice setting, while increasing access to comprehensive speech pathology services for members of the public.

About the Role

A fantastic opportunity exists for an experienced paediatric Speech Pathologist who enjoys delivering high quality client-focused care while also supporting the clinical training of the next generation of Speech Pathologists. You will be joining a small and passionate team of Speech Pathologists that work together to deliver high quality, comprehensive services to speech pathology clients in a private practice setting, that is also committed to providing clinical supervision to Melbourne University Masters of Speech Pathology students on clinical placement.

Please note this is a part-time (0.6 FTE) position.

Located in Carlton, close to busy Lygon Street and a short tram ride from the Melbourne CBD, the Melbourne Audiology and Speech Pathology Clinic is a progressive and client centred clinic that provides high quality care and an outstanding learning environment.

Benefits of joining our practice:

- Opportunity to grow and develop with the practice.
- Supportive and experienced team
- Clinical education experience aligned with the University of Melbourne
- Above award salaries

Essential Selection Criteria

- A Bachelor's or postgraduate degree in Speech Pathology or equivalent, leading to eligibility for membership with Speech Pathology Australia.
- Exceptional patient management and interpersonal skills with the ability to communicate with a diverse group of clientele and stakeholders and manage complex clinical caseloads primarily paediatric
- Broad clinical experience in speech pathology clinical service provision that meets the needs of a general paediatric caseload that may include clients with ASD, CAS and fluency disorders
- Demonstrated knowledge of evidence for practice and a commitment to continuing professional development to keep skills and knowledge up to date
- Strong organisational skills with an ability to manage time efficiently and effectively and work across a number of areas
- Excellent verbal and written communication skills, including the ability to communicate with the NDIS, Medicare and Private Health insurers, so as to develop effective working relationships and promote optimal client outcomes
- Strong communication skills with a demonstrated ability to build and maintain effective and productive relationships with a wide range of internal and external stakeholders
- Commitment to Speech Pathology Australia's Code of Ethics

If you want to join our team, please submit a cover letter and CV through the APPLY FOR THIS JOB button next to the advertisement on the [SEEK](#) website.
