1. POSITION SUMMARY

The Transformation program Change Lead will be responsible for creating and delivering a range of change activities required to support the implementation, embedding and adopting of the Program's deliverables across the organisation.

Working across both the program's Change and Delivery streams, a well-rounded change Management Lead will support both teams to deliver and support the key change deliverables and activities in these streams.

2. POSITION CONTEXT

The outcomes of the Royal Commission into the Victorian Mental Health System enable a revolutionary new era of reform in mental health that will at last see youth mental health progress in the direction that we have pioneered together over the past 30 years.

Orygen delivers cutting-edge research, policy development, innovative clinical services, and evidence-based training and education for the mental health workforce to ensure that there is continuous improvement in the treatments and care provided to young people experiencing mental ill-health.

We are a complex organisation. Our activities and workforce are diverse and include:

- Five headspace centres in Craigieburn, Glenroy, Melton, Sunshine and Werribee that deliver primary clinical services to young people and are operated by Orygen.
- The Centre for Youth Mental Health, a University of Melbourne research and teaching department that is wholly seconded into Orygen. Centre staff are provided with Orygen email addresses and have the use of Orygen systems.
- Orygen Specialist Program (formerly referred to as Orygen Youth Health Clinical Program), a tertiary clinical service that is currently operated by North Western Mental Health, co-located with us at Parkville, Sunshine and Glenroy and also operating at sites in Footscray, and Wyndham. Whilst not under the governance of Orygen, Orygen Specialist Program works in close partnership with us.
- Orygen Digital, which develops and rolls out online clinical platforms that are fully integrated with ‘in-person’ clinical services.
- A training and development unit providing online and face to face training for the mental health workforce both nationally and internationally.
A policy think tank drawing on Orygen's research and clinical expertise and partnering and collaborating with key content experts from Australia and around the world to advise government policymakers.

Centralised professional support functions enabling the organisation to achieve strategic and operational objectives.

Orygen established the Transformation Project team to further strengthen the integration of the above systems, focusing on supporting Orygen's transformation program delivery.

The transformation goal is to deliver Orygen's target operating model to become an integrated youth mental health service and translational medical research under a single governance structure that addresses the needs of young people and families.

This position plays a crucial role in the project team accountable for the transformation program's organisational change management processes and deliverables.
