About the role

The Health Services Research Unit are currently looking for a Research Fellow with a passion for identifying effective ways improve patient care and outcomes. The Research Fellow will help develop and support high quality research projects aligned with the primary objectives of the newly formed Health Services Research Unit.

About you

To be successful in this role you will have:

- A PhD in in public health, health economics, epidemiology or related area.
- Experience with data science, digital health, and technology innovation.
- Proficiency in the review and appraisal of the scientific literature; study design and implementation; data analysis and manuscript writing.
- Excellent written and verbal communication skills, with the ability to engage with a variety of stakeholders.

Working at CERA

We offer attractive employment benefits including salary packaging (making part of your salary tax-free), flexible working arrangements and family friendly policies. Whilst the work is challenging, you will be rewarded by contributing to an organisation that is focused giving people living with eye disease a chance to save their sight.

How to apply

Submit a current resume and covering letter that details your interest and suitability for the role. To download the position description or apply for the role please visit the Careers and Study page on our [website](http://www.cera.org.au)
